

Please do not do anything to allow unsolicited calls to once again torture me in my home. I consider it a violation of my privacy and a major annoyance. At one point before the list, I was receiving over 100 solicitation calls a week. Do you know how much that can interrupt a household? I was to the point of having my telephone service disconnected and just utilize cell phone service. Even now I still receive about 10 a week and that is 10 too many. I would like to see the ability for me to totally eliminate any solicitations to my telephone. Please NEVER allow unsolicited telemarketing to my land lines OR my cell service.
